Panther Spirit Shop

****(The last order for the 2006/2007 school year will be placed Friday, January 19th! Please return all order forms by that morning. Thank you!)**

Thank you for bearing with us this first year as we attempted to figure out the best possible process for running the spirit shop! Your patience is greatly appreciated!

Because of the sport sweatshirts (which are very cool to wear, but are an embroiderer's nightmare!) we have decided to change our ordering process to 3 big orders throughout the year rather than small monthly orders. The initial order form will be mailed at the beginning of August so all products will be received before the 1st day of school. The next order will be in the late fall so products will be received before Christmas. We will do one final order after the holidays in case people are interested in spring jackets or short sleeve shirts. We welcome any comments or suggestions about this process.

As always, we also welcome comments on the products that are offered. I believe most people are happy with our polo shirts. (Port Authority offers the same product in both youth and adult sizes which is not very common.) We are still learning the sizing but are willing to help determine the best fit for you before the order is placed. Let us know if you need help ordering!

We would like to get additional input on the Russell sweatshirts. (Russell no longer makes the thicker 10.5 oz. for youth.) Is it better to have them thinner so kids don't get too warm in the classroom, or do we need them thicker to keep the kids warm? Are we happy with Russell, or should I find a new brand for next year? Please use the space below for comments. Thank you so much! _____
